CC	3.0 Litre
BHP	160
Transmission	Manual or Comfortmatic (recommended)
Tachograph	Digital
Exhaust emission	Euro 5
Alternator	180amp HD
Battery	12v 110amp HD

Specification

- Custom made GRP front mated to original Fiat cab, retaining original windscreen, cab front panels and cab doors.
- Stainless steel body frame mated to AL-KO single axle, low chassis frame with custom made GRP exterior body panels, in high Gloss Fiat White, to provide a pleasing body design with a high resistance to corrosion.
- A fully glazed manual plug type door is fitted at the N/S of the saloon rear of the cab area and fully glazed double rear doors fitted at the rear.
- The N/S entrance has a single step entry from ground to the saloon floor in standard form.
- The rear of the cab is open, allowing the driver full access to the saloon area. A flat saloon floor free of any further steps is provided.
- Custom made GRP panels cover the slim, single, rear wheel arches.
- Bonded tinted saloon side windows.
- Lift up roof vent.
- Custom made moulded ABS/GRP interior linings with soft trim panel to centre roof area.
- A custom wiring loom is fitted to the saloon area with its own fuse board and electrical interface.
- L.E.D. type rear lamps and end of frame marker lights complimented with high level rear repeater lamps.
- An Eberspacher D4 saloon heater is fitted as standard.
- Seating for 14 - 16 passengers provided in the saloon. Alternative layouts are available.
- Location for up to 5 wheelchairs.
- A manual fold out ramp is mounted in board at the rear of the saloon.
- The vehicle is Type Approval Compliant
- Normal Ride Height: 360mm
- Entry step height when lowered: 270mm nominal
- Rear floor height when lowered: 445mm

Optional Extras

- Climate control in lieu of standard heating
- Power plug door in lieu of manual unit
- Paint in a single colour (High Gloss Fiat White included as standard)
- Manual fold out ramp at nearside with power operated twin leaf plug door
- Additional battery wired through an intelligent split charge relay (A recommended option with power doors and/or climate control).
